# Message from the Chairperson

Dear Lions, Leos and Friends,

This has been an extraordinary year for Lions Clubs International Foundation (LCIF) and for the communities we serve around the world. In this year's annual report, we reflect on some of the ways our donors' generosity helped us bring both compassion and help, locally and globally.

It was my privilege to announce during the 107th Lions International Convention in Orlando, Fla., USA, that we raised nearly US\$83 million, thanks to contributions from Lions, Leos and other supporters worldwide. More importantly, every donation and every act of service these gifts made possible brought us closer to a world filled with hope, kindness and opportunity.

As we celebrate our shared achievements, we are reminded that the need for service continues. There are still many lives to impact and communities to uplift. Lions and Leos serve without boundaries or borders, and we will continue to lead with understanding, act with purpose and inspire others to join us in building a better future.

Serving as your chairperson this year has been a true honour. Thank you for your service, support and commitment to our humanitarian mission. Let us celebrate our progress, share our stories and carry this momentum into the future.

Yours in service,

*Dr. Patti Hill*

Dr. Patti Hill  
2024–2025 Chairperson, Lions Clubs International Foundation

# Life-Changing Service with a World-Changing Mission

LCIF empowers an audacious mission of service. One that encourages Lions and Leos to believe we can make a global difference, one community, one life, at a time. Our global foundation supports the efforts of Lions, volunteers and partners to improve health and well-being, strengthen communities and support those in need to promote peace and understanding globally.

Through eight cause areas, Lions and Leos take bold action to reshape communities and address unmet needs. With grants and programs focused on childhood cancer, diabetes, disaster relief, environment, humanitarian efforts, hunger, vision and youth, LCIF expands Lions' reach and supports compassionate service.

## LCIF and the United Nations

Lions International has partnered with the United Nations (UN) for 80 years. Like LCIF, the UN seeks to address global and emerging needs of vulnerable and marginalized populations. To achieve this, the UN created 17 Sustainable Development Goals (SDGs)—a collection of interlinked global objectives designed to foster a better, more sustainable future. LCIF's cause areas reflect the spirit of these goals.

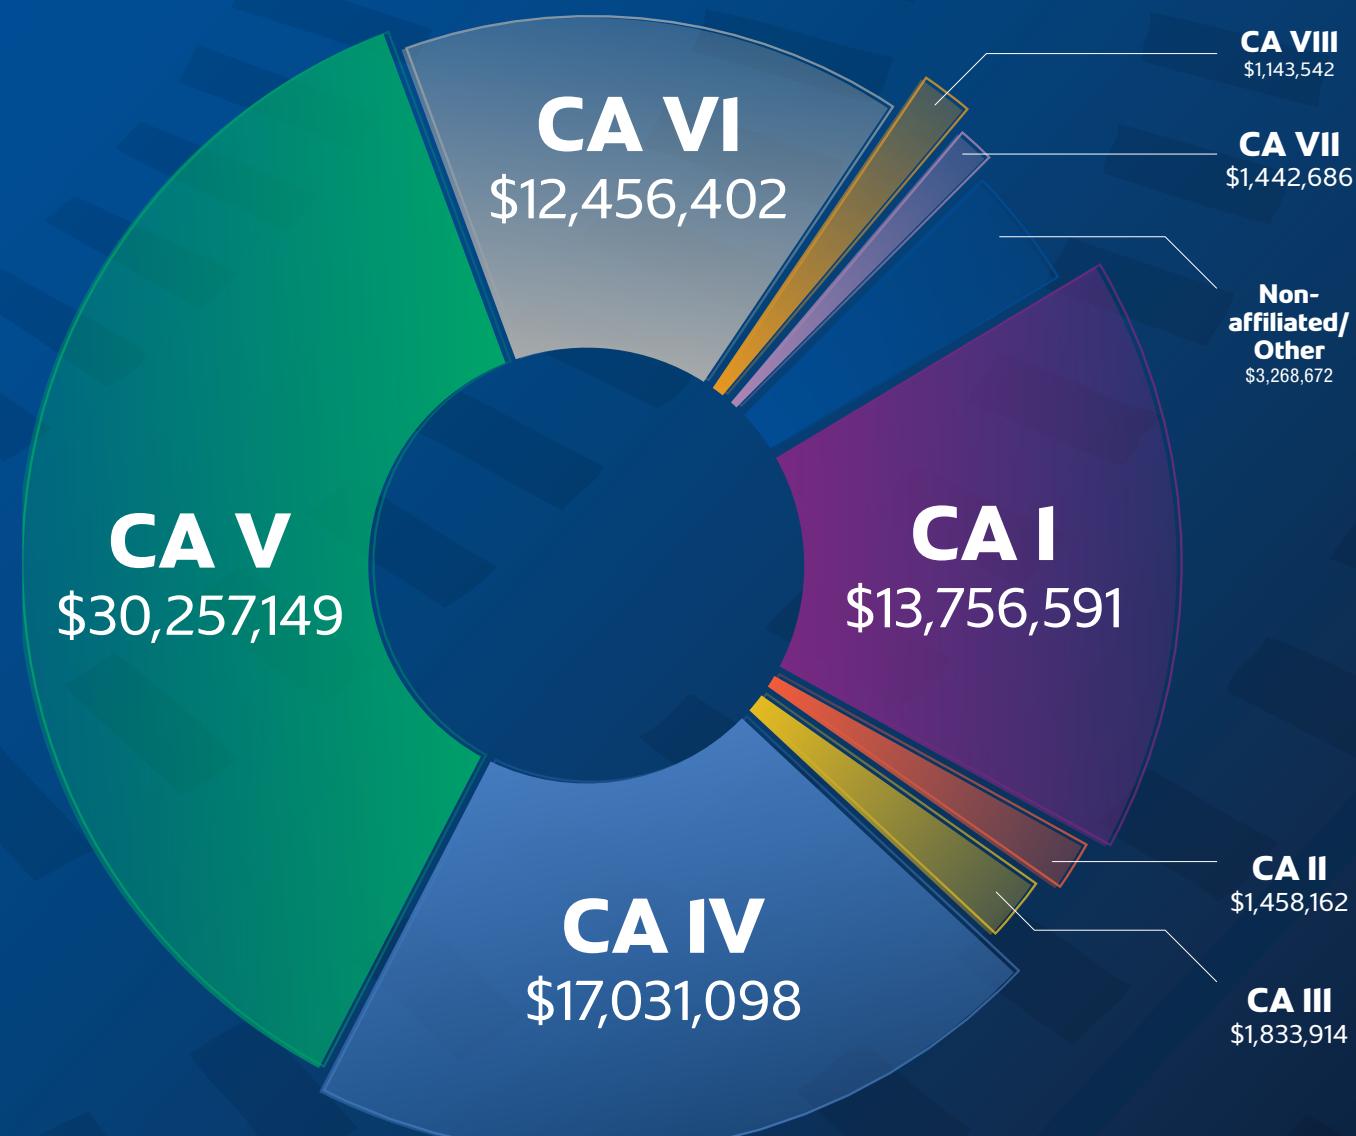

[www.un.org/sustainabledevelopment/](http://www.un.org/sustainabledevelopment/)

The content of this publication has not been approved by the United Nations and does not reflect the views of the United Nations or its officials or Member States.

## Bringing Hope Through Service

"Lions and Leos face global challenges with tenacity and shared purpose, because we believe we can make a difference in our communities through humanitarian efforts," 2024–2025 LCIF Chairperson Dr. Patti Hill said. This simple, yet transformative belief compels Lions and Leos to undertake life-changing service and generously support the global foundation that expands service opportunities. Thanks to the incredible generosity of donors worldwide, LCIF exceeded its US\$80 million stretch goal this year. These gifts offered community-driven solutions, bringing hope to those in need. LCIF thanks every Lion, Leo, club, district, multiple district, organization or individual who made a contribution to empower our mission of service. We are grateful for your commitment.

## Funds Raised by Constitutional Area (CA) in US Dollars

# Grants Awarded by CA

- CA I: United States of America and its affiliates, Bermuda, The Bahamas  
US\$3,489,632
- CA II: Canada  
US\$983,253

- CA III: South America, Central America, Mexico, Islands of the Caribbean Sea  
US\$4,676,087
- CA IV: Europe  
US\$7,387,235

○ **CA V: East Asia, Southeast Asia**  
US\$10,167,366

○ **CA VII: Australia, New Zealand, Papua New Guinea, Indonesia, Islands of the South Pacific Ocean**  
US\$1,109,326

○ **CA VI: India, South Asia, Middle East**  
US\$10,997,238

○ **CA VIII: Africa**  
US\$2,283,779

**Non-Affiliated:** US\$3,372,666  
**Total:** US\$44,466,582

# Improving Health and Well-Being

To empower Lions and Leos to improve health and well-being for millions of people, LCIF proudly offers grants that support critical global causes such as childhood cancer, diabetes, vision and more. These grants turn compassion into action, funding meaningful service projects that bring lasting change to communities around the world.

**1,355,580**

vision beneficiaries received LCIF funded support this fiscal year

**Over 2.2 billion**

people globally have a near or distance vision impairment  
(*World Health Organization*)

**37,198**

childhood cancer beneficiaries received LCIF funded support in 2024–2025

**200 million to 830 million**

people living with diabetes increased between 1990 and 2022.  
(*World Health Organization*)

**352,474**

disaster relief beneficiaries this year

**91,868**

diabetes beneficiaries received LCIF funded support in 2024–2025

## Offering Hope for Kidney Patients in Türkiye

Due to the COVID-19 pandemic and devastating earthquake in 2023, there has been a rise of chronic diseases in Türkiye, causing the percentage of dialysis patients to increase dramatically. District 118-Y Lions used a US\$32,455 Matching Grant to purchase three new dialysis machines and a water treatment device to help increase the patient capacity at the Turkish Kidney Foundation. The foundation was treating 700 patients annually, and with these three machines, is expected to reach an additional 100 people.

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Industry, Innovation and Infrastructure; Reduced Inequalities

## Expanding Access to Diabetes Care

At Groves Memorial Community Hospital in Fergus, Ontario, Canada, patients living with diabetes receive the knowledge and support they need to live healthier lives. Due to the growing population, the hospital was no longer able to accommodate the number of clients trying to receive treatment. To enhance the center's resources and abilities, Lions donated over US\$170,000 to the Groves Hospital as part of the Lions for Groves project, which included a US\$50,000 Diabetes Grant from LCIF. Today, the center has two nurse offices, two dietician offices, access to a gym and a large consultation room for both individual patients and group activities.

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Industry, Innovation and Infrastructure; Reduced Inequalities

## Building Futures in Peru with Improved Vision

In Peru, few vision specialists are specifically trained to treat and diagnose people with disabilities, which leads to gaps in vision care for people with intellectual disabilities and developmental disorders. To address this issue, Lions of Peru used a US\$6,200 District and Club Community Impact Grant to purchase a visual function analyzer for Special Olympics athletes. This analyzer allows vision measurement without overwhelming the patient by using a noninvasive, remote method. This helps ensure more accurate diagnoses while reducing the challenges faced by students with severe disabilities and is expected to reach 15,000 young people.

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Industry, Innovation and Infrastructure; Reduced Inequalities

# Expanding the SightFirst Legacy:

LCIF Launches  
New Vision Grant

**“Lions—you who have your sight, your hearing, you who are strong and brave and kind—will you not constitute yourselves Knights of the Blind in my crusade against darkness?” Spoken by Helen Keller during the 1925 Lions Clubs International Convention in Ohio, USA, these words motivated Lions across the globe to increase their efforts to help prevent and treat vision loss. Over the last 100 years, Lions continued to rise to that challenge, developing innovative projects, partnerships and programs, empowered by LCIF.**

## SightFirst: Answering Helen Keller's Challenge

Since 1990, SightFirst funds allowed Lions, health care providers and partner organizations around the world to fight the major causes of preventable and reversible blindness, impacting more than 544 million people. In just over three decades, LCIF approved more than US\$389 million in SightFirst Grant funding for over 1,400 projects in 118 countries, thanks to the incredible generosity of donors. These funds enabled 9.8 million cataract surgeries and trained 2.66 million healthcare professionals. They also secured hundreds of millions of doses of medications to control trachoma and river blindness, helping eliminate river blindness in Colombia, Ecuador, Guatemala and Mexico, as well as helping eliminate trachoma in Malawi. These humanitarian service efforts have changed lives and improved communities. However, according to the World Health Organization, more than 2.2 billion people worldwide have a vision impairment and still need help.

To build on the legacy of SightFirst, LCIF launched a new Vision Grant opportunity that supports Lions-led service activities fighting blindness and preventable vision loss and assists people in underserved communities who are blind and visually impaired. The Vision Grant aims to support infrastructure development, equipment acquisition, human resource building and limited consumables, which are all core principles of the SightFirst program. “We are immensely proud of the impact SightFirst Grants had in communities around the world and excited to build on that success with this new grant opportunity,” LCIF Chairperson Dr. Patti Hill said.

“Ever since Helen Keller inspired Lions to champion the vision cause, we’ve served and advocated for the blind and visually impaired of all ages, in every corner of the world. LCIF enhances that service and expands our reach,” Dr. Hill said. “We are extremely proud of our history and look forward to the continued impact we will make restoring and preserving vision in the decades to come.”

To learn more about SightFirst’s impact, visit [lionsclubs.org/SaveVision](https://lionsclubs.org/SaveVision).

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Industry, Innovation and Infrastructure; Reduced Inequalities

Since 1990,  
**more than 544 million people** around the world had their vision restored,  
improved and preserved through SightFirst funding;

**9.8 million** cataract surgeries;

**Over 500 million** doses of medication to treat and prevent river blindness and trachoma;

**and more!**

# Strengthening Communities

Strengthening communities is at the heart of our humanitarian mission. Through grants and programs, LCIF equips Lions and Leos with the tools and resources they need to serve communities during times of crisis. By offering a range of diverse grant opportunities, LCIF helps Lions and Leos take innovative action to meet both immediate and long-term needs, expanding our impact and reach.

In 2024,  
**28%**

of the global population, or 2.3 billion people, faced moderate or severe food insecurity  
(United Nations)

LCIF awarded  
**71**

grants to construct, upgrade or equip schools in 2024-2025

**Over 600 million**

Emergency Grants were approved across

**42**  
unique geographic regions

**235**

Emergency Grants totaling over US\$3 million were awarded

**675,894**

beneficiaries served through LCIF grant funds to alleviate hunger

children are not able to attain proficiency in reading or math  
(United Nations Children's Fund)

## Cooking for the Community

In District 354G, Lions used a US\$1,600 District and Club Community Impact Grant to make and distribute kimchi to elderly, disabled and underprivileged people in their community. While kimchi is a beloved staple in South Korea, it can be labor-intensive to make. Lions buy the ingredients and make it a community event, producing large quantities that can easily be shared with neighbors.

**UN Goal Alignment:** Zero Hunger; Good Health and Well-Being; Reduced Inequalities

## Renovating a Local Park in Brazil

A local park in Tanabi, Brazil, was essentially forgotten and desperately needed a refresh. Leos used a US\$1,985 Leo Service Grant to work with the city government and help with renovations. Taking an environmentally friendly approach, Leos planted native trees to attract birds and other fauna. Now, it is an inviting space in District LC 6 that approximately 3,000 people will enjoy.

**UN Goal Alignment:** Partnerships for the Goals; Life on Land; Sustainable Cities and Communities; Reduced Inequalities

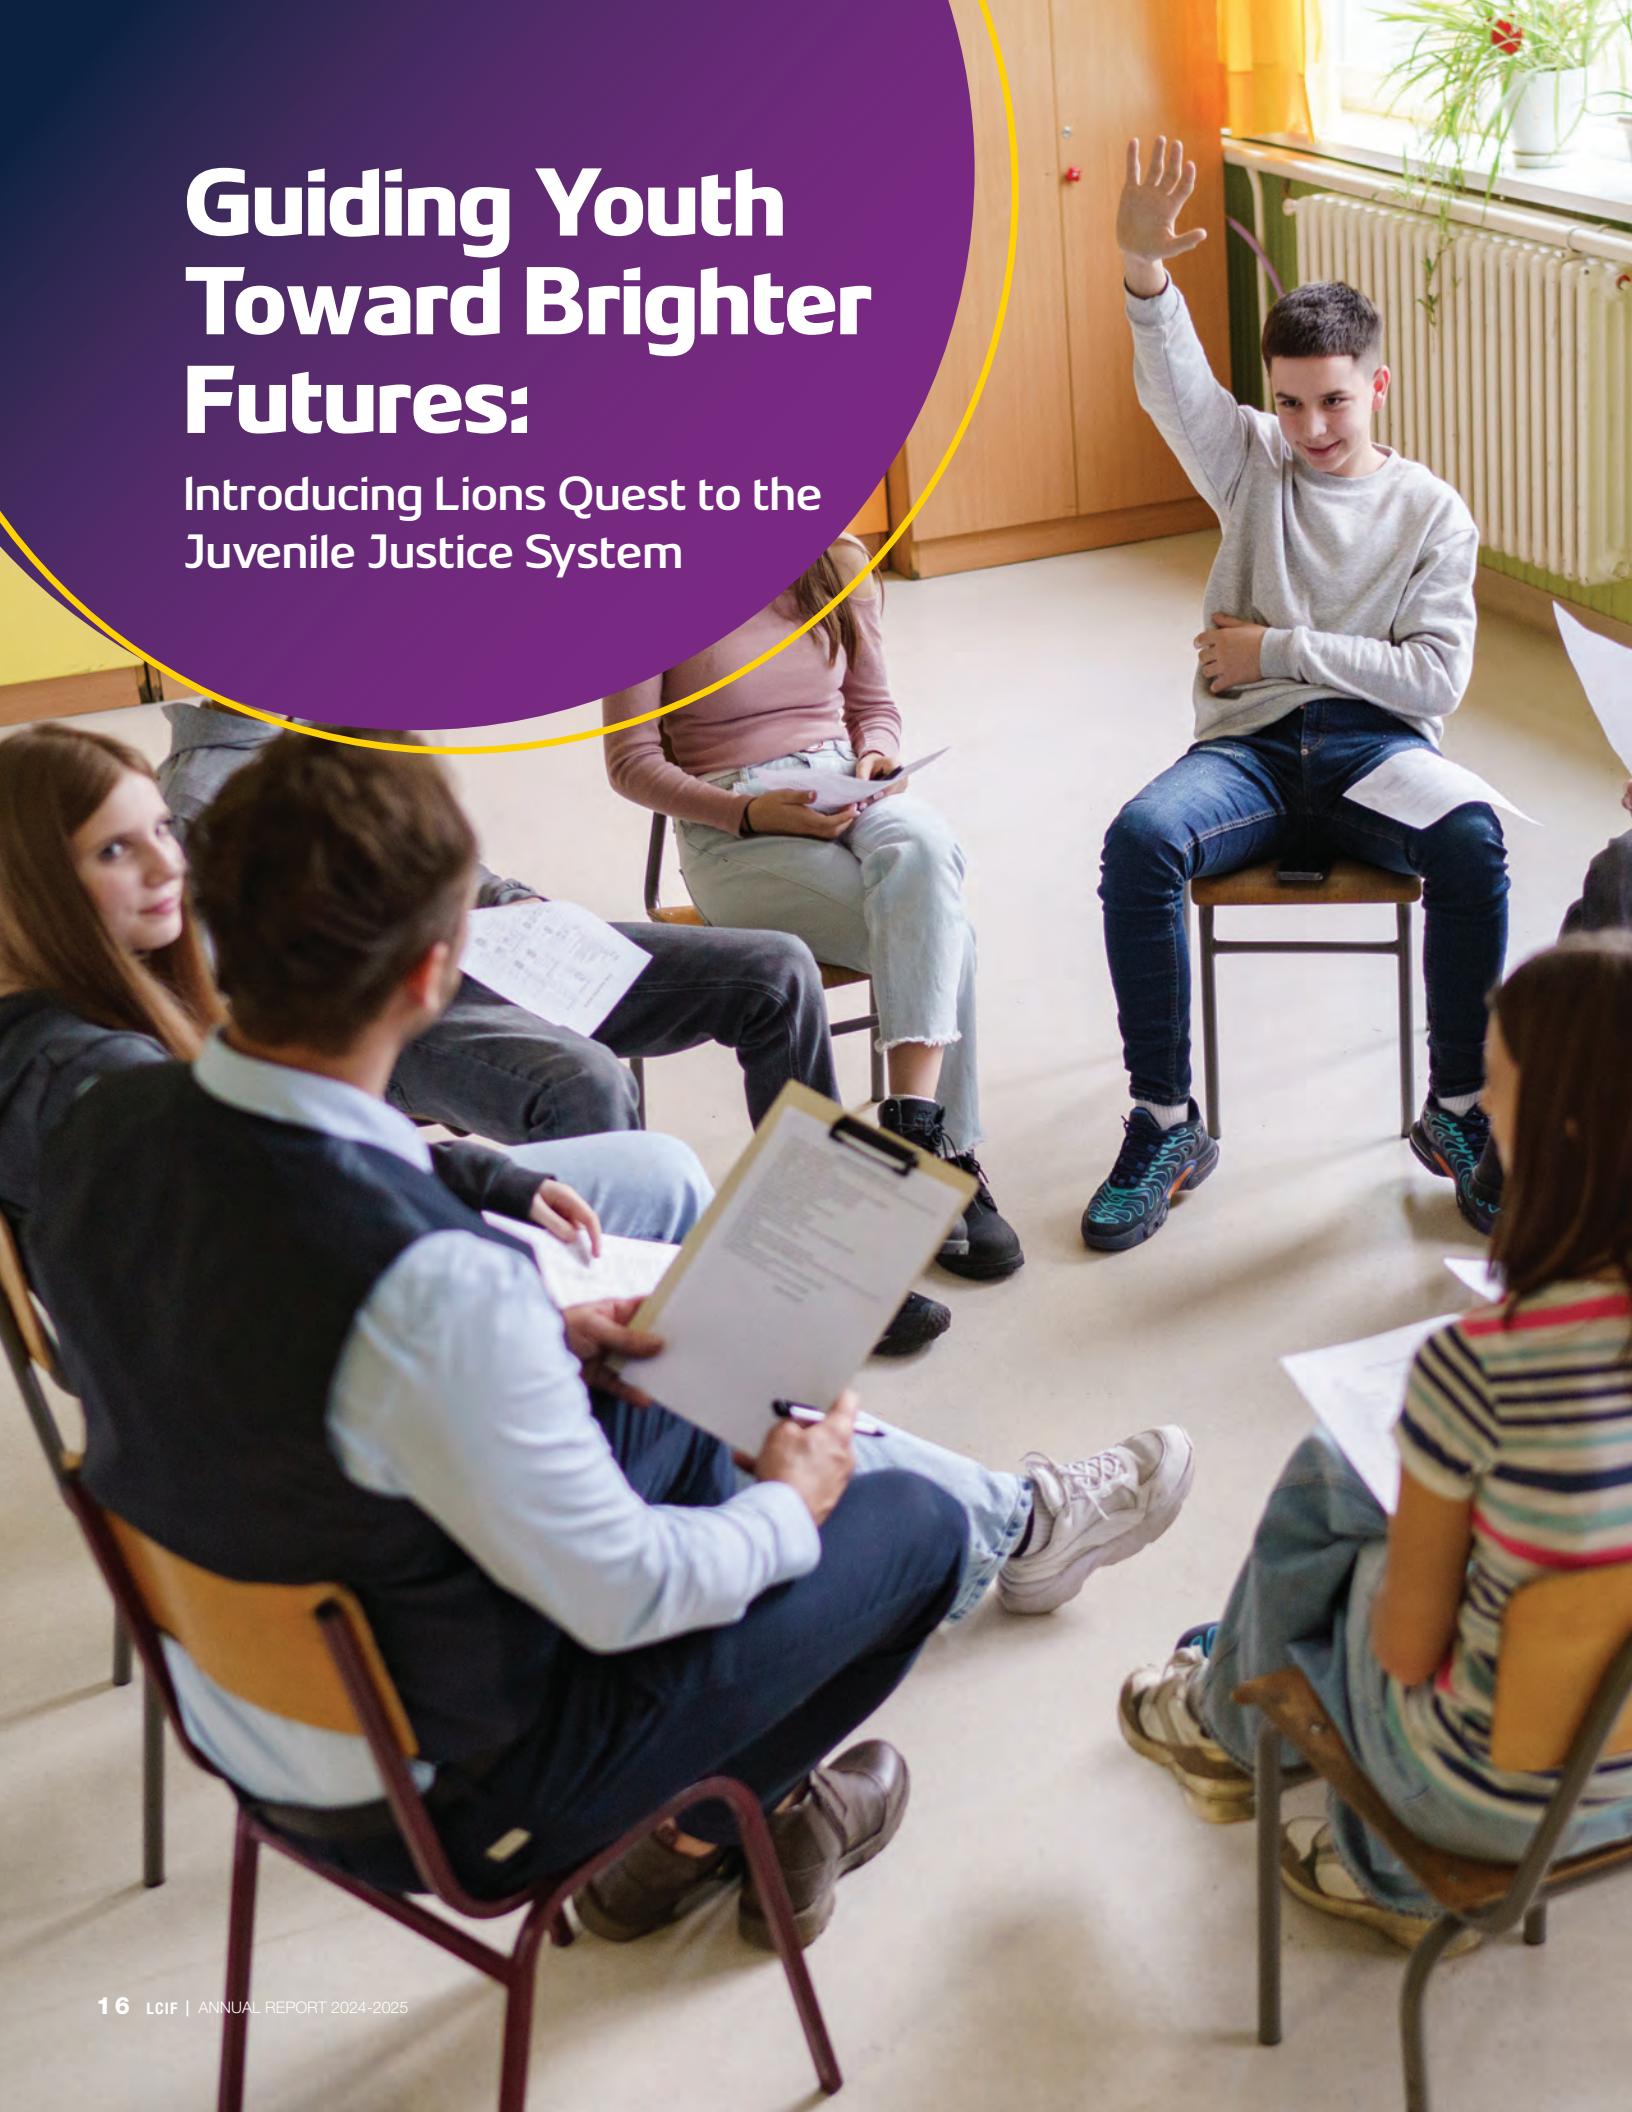

## Rising Floodwaters in Indonesia Move Lions to Action

On March 3, 2025, residents in Jakarta, Indonesia, experienced relentless rains that continued for days. Floodwaters exceeded three meters, submerging homes and displacing thousands of people. Within hours, Lions reached out to LCIF for assistance. Lions in District 307 A1 received a US\$15,000 Emergency Grant to help their neighbors. They collected essentials, such as towels, toothbrushes and cleaning supplies. Lions then packed these essential items into 1,000 buckets that could be provided to flood victims. They also provided 2,000 people with rice to assist with immediate nutrition needs.

**UN Goal Alignment:** No Poverty; Zero Hunger; Sustainable Cities and Communities

# Guiding Youth Toward Brighter Futures:

Introducing Lions Quest to the  
Juvenile Justice System

Lions Quest social and emotional learning programs are built to support, encourage and honor the unique strengths and experiences of every student. Designed to create a sense of connection and belonging inside and out of the classroom, these programs ensure that everyone recognizes their value and contributions to society so that no one feels left out.

In 2022, Past International Director (PID) Jerome Thompson asked himself, *How can we move Lions Quest into environments where we can best serve the youth that are most at-risk?* After a conversation with Past District Governor Daniel Elkins and PID Shea Nickell, they discovered over 700,000 young people stand before a judge each year in the United States for breaking the law.

In an effort to serve the community and bring hope to those who need it most, the first pilot program was launched to introduce Lions Quest to the juvenile justice system. As a court-ordered alternative to incarceration, youth on probation began participating in a customized 16-week Lions Quest course. The Lions Quest lessons help young people in these situations learn more about themselves. By starting with self awareness, these students can begin to learn better ways to interact with others, communicate effectively and make healthy choices.

Following PID Thompson's lead, a new Lions club was formed in Madisonville, Kentucky, USA, with the sole intention of supporting Lions Quest. The club began implementing a pilot program utilizing Lions Quest and partnering with the Juvenile Justice Judge of Hopkins County to offer the program to children ages 12 to 17 who have been court ordered to join. They are given the option to either complete the Lions Quest program or go to the juvenile detention center.

Soon after, the children have experienced noticeable growth. Lion Faith Shelton, Lions Quest facilitator for the juvenile justice program, says, "At first, most of them were hesitant to come and felt like they were forced to be there. However, by the third class, they were excited to be there. They wanted to be part of the program and were asking what they can do next."

Their relationships with their parents also significantly improved. "The children used to struggle to talk to their parents, but after the program, the parents expressed how they were finally able to have conversations they wanted to have for years. With the tools we gave the parents and the children to communicate effectively, appropriately and positively, they are finally able to have a positive relationship," says Lion Shelton.

This program extends beyond youth. According to PID Thompson, "One young man told us he didn't know how to get his community service required to get off probation, so we helped him find a solution. Years later, he graduated on time and secured a successful job. Then he reached out to us again asking for help with budgeting. So this is a lifelong commitment. Our volunteers are making a difference in the lives of youth who then work together to change the quality of life for everyone in our community."

To learn more about how Lions Quest is transforming lives, visit [lions-quest.org](https://lions-quest.org).

**UN Goal Alignment:** Quality Education; Partnerships for the Goals; Sustainable Cities and Communities; Peace, Justice and Strong Institutions

# Supporting Those in Need

When Lions see a need in our communities, we take action. With grant funding from LCIF, our efforts are enhanced and expanded. Together, we are empowered to provide disaster relief, care for the visually impaired, strengthen healthcare infrastructure, improve our environment and more. Even in the most challenging circumstances, Lions can leverage LCIF grants and programs to offer hope to those who need it most.

people, or 40% of the global  
population, are adversely affected  
by land degradation (United Nations  
Environment Program)

## Empowering Education One Computer at a Time

Lions in Thailand used a US\$29,362 Matching Grant to purchase computers for the computer lab at the Khokksamrong Witthaya School in Lopburi Province. This will benefit over 2,000 people, including students, teachers and school staff. The computer lab is helping students develop technology skills and access resources, supporting teachers as instructional tools and assisting school staff with administrative tasks.

**UN Goal Alignment:** Quality Education; Reduced Inequalities; Sustainable Cities and Communities

## Restoring Joyce's Vision for a Cheerful Tomorrow

Joyce Chikwama, a six-year-old girl from Kayumweyumwe, Mumbwa, Zambia, was born with a growth in her right eye that gradually became worse over the years. Due to financial constraints, her parents, like many others in Kayumweyumwe, struggled to afford treatment for their children. Fortunately, through partnership efforts with Lions Aid Zambia, Latter-day Saint Charities and LCIF, Joyce was referred to the University Teaching Hospital for care. She was diagnosed with an epidermal cyst and successfully underwent treatment and excision surgery. Since the procedure, Joyce is living a cheerful life and is able to enjoy her favorite activities like playing house, drawing and writing without any suffering.

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Reduced Inequalities

## Providing Equipment for the National Hearing and Speech Institute of Iceland

The Lions of District 109-A used a US\$38,391 Matching Grant to purchase diagnostic equipment for the National Hearing and Speech Institute of Iceland (HTI). HTI provides audiological and hearing services for children from birth to 18, including screening and monitoring. Due to insufficient funding, they were unable to offer audiology services, resulting in a long waitlist. Since this purchase, it is estimated that nearly 1,000 children will benefit each year.

**UN Goal Alignment:** Good Health and Well-Being; Reduced Inequalities

# Transforming Treatment:

Creating the LCIF Recreation Room in  
Kasturba Hospital

“Even though treatments from qualified facilities and medical professionals can save children’s lives when they are faced with a cancer diagnosis, many families do not fulfill the recommended treatment plans,” says Melvin Jones Fellow Lion Dr. M.K. Bhat. Kasturba Medical College in Kasturba Hospital, located in Manipal, Udupi, India, has had a major problem with treatment abandonment and refusal. About 80% of the patients who are on treatment in the Division of Paediatric Haematology and Oncology are below the poverty line and nearly 60% of these patients travel more than 200 kilometers to receive treatment, making adherence to cancer follow-up care incredibly difficult for their families.

Additionally, cancer care centers are not often equipped with comfortable or recreational facilities, making the experience even more challenging for children and families. However, it has been shown that adding recreational activities, like reading or watching sports, into therapy can make the experience more pleasant and encourage them to come back for their follow-ups on time.

To enhance the treatment and therapy experience for patients and their families, LCIF awarded Lions of District 317-C a US\$10,000 Childhood Cancer Grant. This grant was used to repurpose a section of Kasturba Hospital into a youth-friendly recreational area for pediatric cancer patients undergoing treatment.

The Lions’ project successfully renovated an area near the pediatric oncology ward into two recreational rooms. One room is now an educational space with Lions visiting regularly to teach the patients. It is well equipped with a television, white board, tables, reading lights and books for children ages three to 18. Kasturba Medical College and other local donors generously provided books, toys and other recreational materials. The second room has been designed with comfortable couches to address the need for a relaxing waiting space for low-income pediatric cancer patients and their families who travel long distances.

The cancer center generally treats about 8,000 new cancer patients each year. Its pediatric hematology and oncology ward serves about 250 children annually and has 20 beds, a dedicated pediatric nutritionist, and doctors and nurses

trained in pediatric oncology. Services include bone marrow transplantation and a day care unit for outpatient-based blood transfusion and chemotherapy.

The LCIF Recreation Room officially opened on June 5, 2023, and is projected to benefit around 215 children and their parents each year, providing a comfortable and supportive space for them. “It was so beautiful to see how this space has transformed into a place filled with hope and positivity. I am incredibly proud to be a part of it,” says Lion Bhat. This project is a testament to how much a grant-funded initiative can positively impact a community. As Lions and Leos continue to act with compassion, LCIF will support their efforts through meaningful grant opportunities, creating more opportunities to help people around the world.

To learn more about LCIF’s impact through grants, visit [lionsclubs.org/GrantsToolkit](https://lionsclubs.org/GrantsToolkit).

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Industry, Innovation and Infrastructure; Reduced Inequalities

# Global Partnerships Lead to Greater Impact

Lions and Leos are global leaders in humanitarian service, responding to community needs with compassion and agility. LCIF strengthens this service by connecting Lions with corporations, foundations and governments, creating powerful collaborations that provide lasting impact for communities worldwide.

**Elevance and LCIF provided over  
902,000**

pounds of food and 2,000 hours of community service

**1,510**

individuals were screened through the Lavelle Fund for the Blind and LCIF partnership and were provided with 678 cataract surgeries and prescribed 1,681 glasses

**880,000**

children received school meals thanks to a partnership with World Food Program USA and LCIF

**50 million**

children were reached by Johnson & Johnson and LCIF through Sight For Kids

**Over  
455,000**

Special Olympics athletes have received free vision screenings through LCIF's and Special Olympics' Opening Eyes program

**Over  
26,000**

children with cancer were treated by Global HOPE and LCIF and they also trained nearly 8,000 healthcare workers

## Building a New Diagnostic Center for Low-Income Communities

LCIF and Siliguri Terai Lions Charitable Trust partnered with Norysis Technology Private Unlimited to establish the Siliguri Terai Lions Diagnostic Center. The diagnostic center will provide essential medical services, including lab tests and screenings, to enhance early diagnosis and treatment to improve the healthcare infrastructure in this underserved area. The center is designed to reach thousands of individuals annually, especially women and children, who often face additional challenges securing high-quality healthcare.

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Industry, Innovation and Infrastructure; Reduced Inequalities; Gender Equality

## Treating Children Across Africa

The partnership between Teva, LCIF and Texas Children's Hospital maximizes the program's impact by providing additional funding, expanding reach and accelerating progress. Over the past three years, Texas Children's Global HOPE program has trained 35 pediatric specialists who now lead care efforts in nine hospitals across six African countries. These specialists have treated over 23,000 children, including more than 3,000 cancer cases annually and thousands more with sickle cell disease, significantly improving survival outcomes for children with cancer and blood diseases in Africa. At this rate, the program has the potential to save up to eight million children by 2050.

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Sustainable Cities and Communities; Reduced Inequalities

## Expanding Sight For Kids

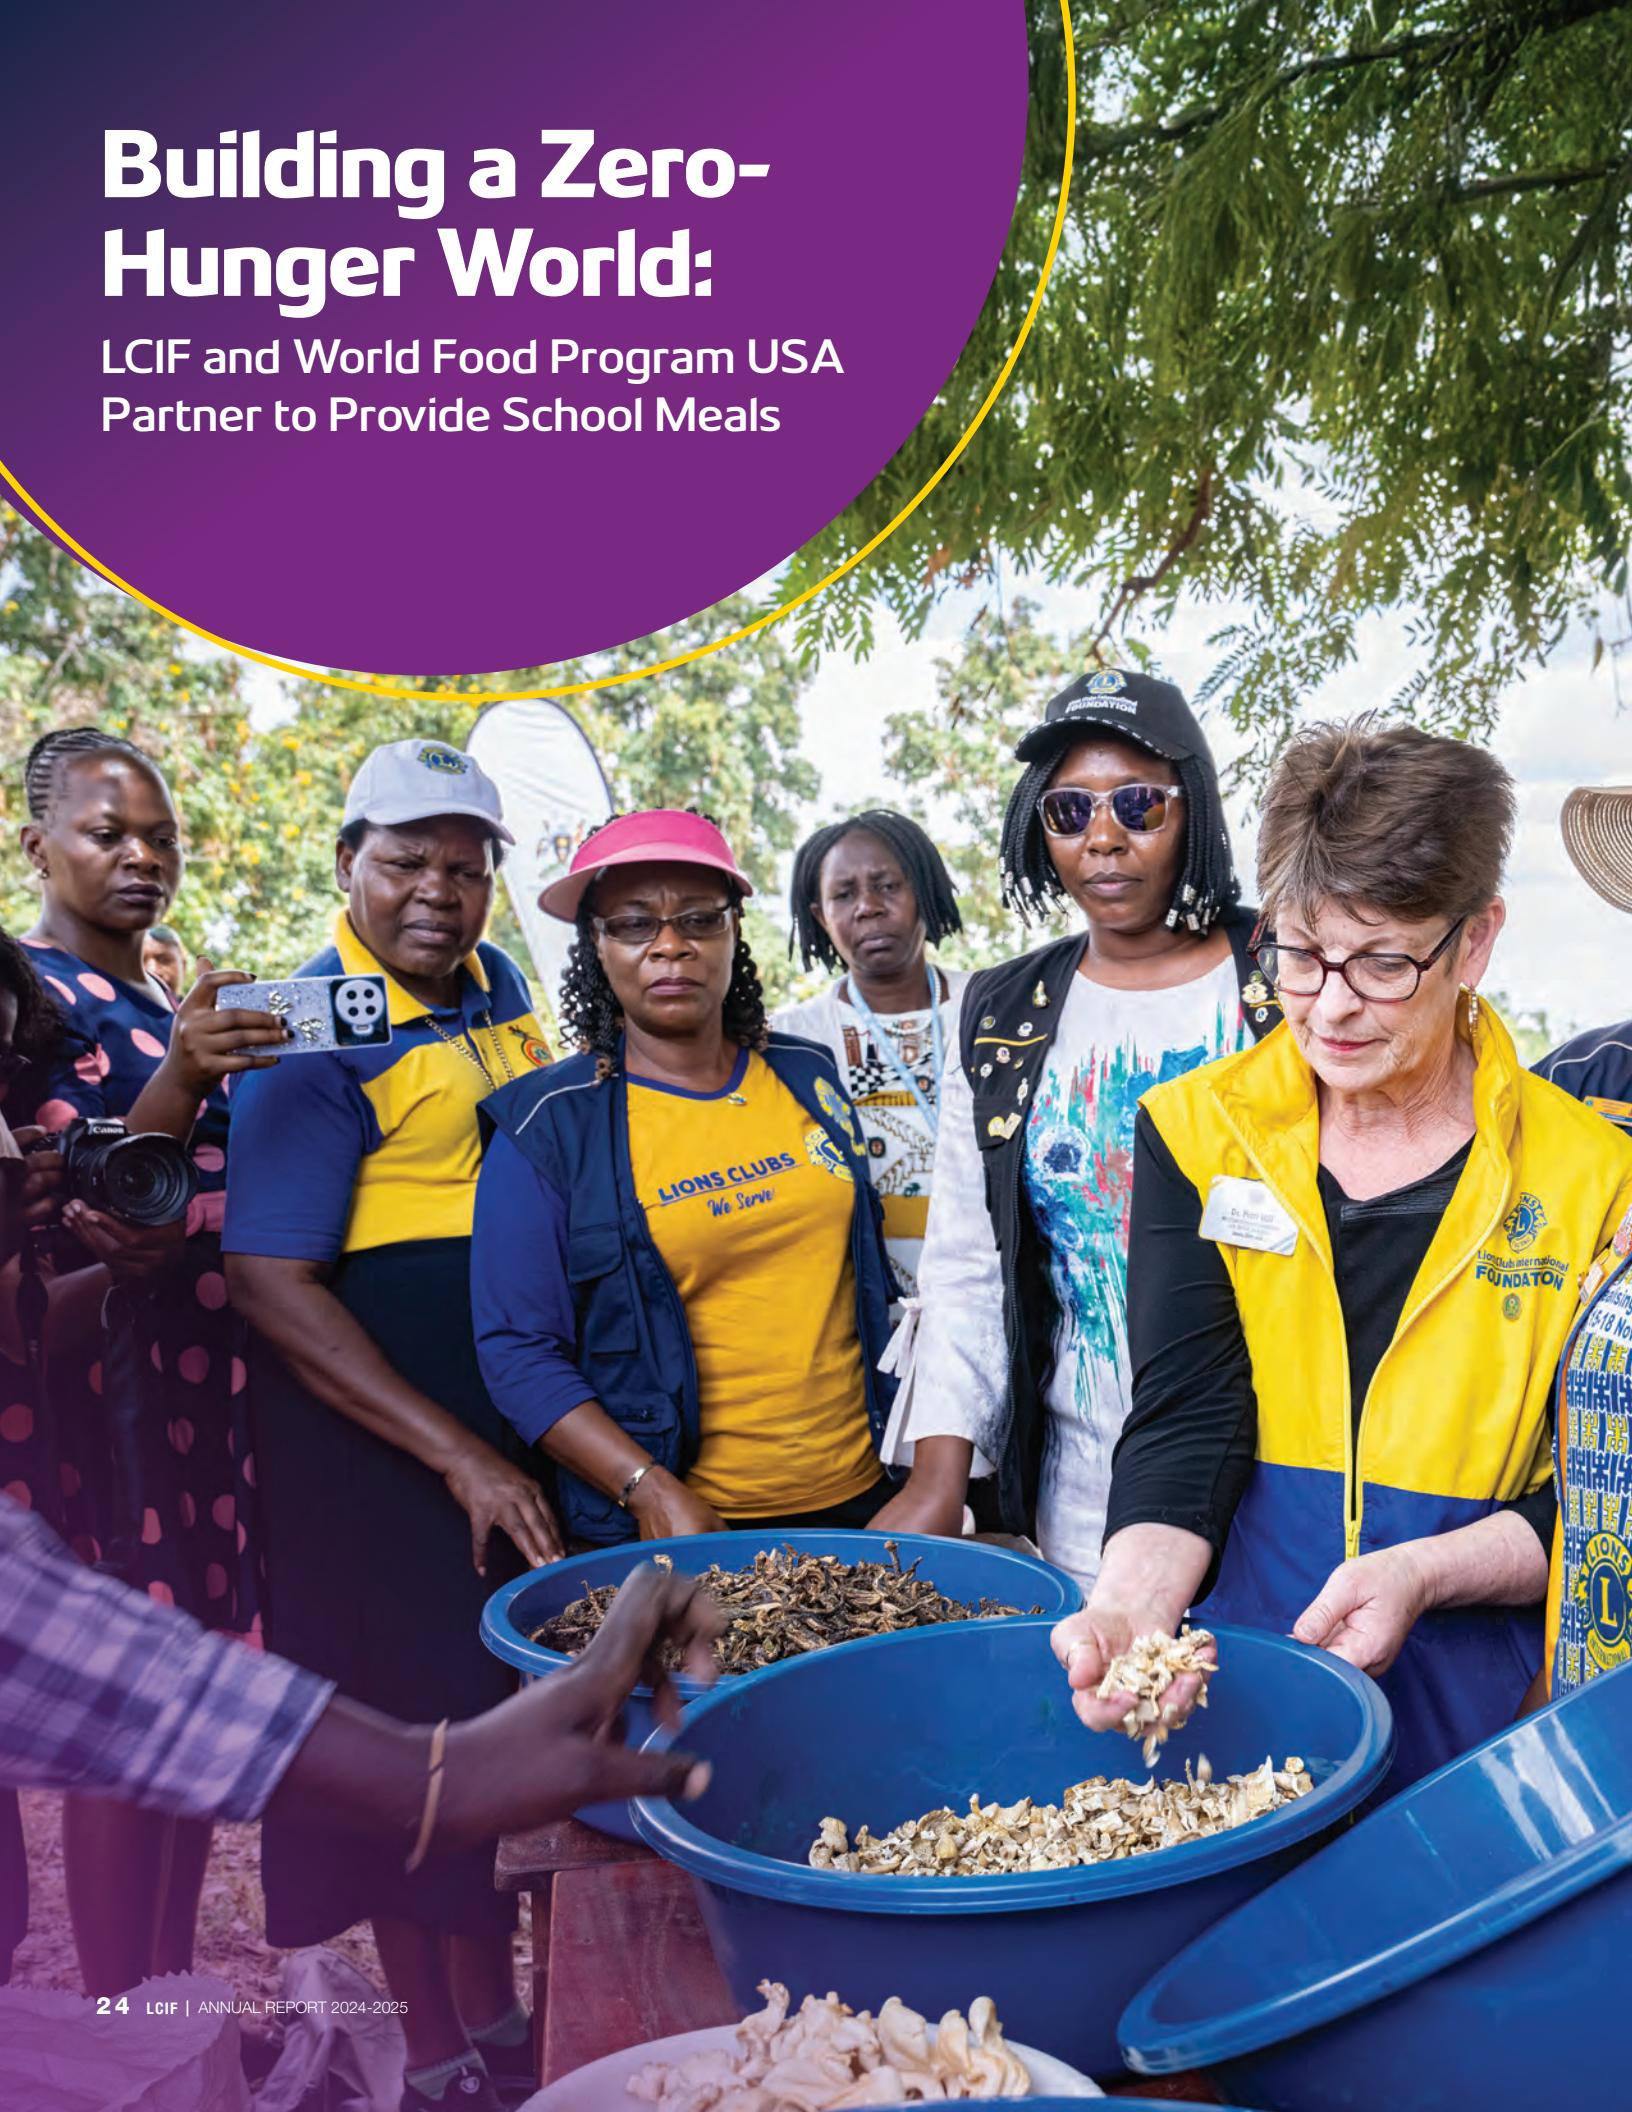

Johnson & Johnson announced a commitment of US\$1.5 million in additional funding to launch new Sight For Kids program sites in Brazil and Ahmedabad, India and to expand the scope and scale in Egypt, Eastern India, and Kenya. As the largest-known, school-based eye health program mobilizing Lions and eye care professionals to provide comprehensive eye health services, this expansion is anticipated to reach nearly 2.1 million additional children in 2025. The expansion will also focus on engaging community health workers and integrating key eye health training to underscore the importance of vision care to the most rural and disadvantaged communities.

**UN Goal Alignment:** Good Health and Well-Being; Partnerships for the Goals; Reduced Inequalities

# Building a Zero-Hunger World:

LCIF and World Food Program USA  
Partner to Provide School Meals

For millions of children around the world, a school meal is life changing inside the classroom and beyond.

Going to school on an empty stomach decreases concentration and stifles academic performance, making it harder to prepare for a strong future. Janet Lino, a student at Karenga Boys Primary School says, "If I go to school hungry, I just fall asleep in class. Food gives me enough energy to get my work done."

With nutritious meals making an incredible difference for long-term student success, Lions, LCIF and World Food Program USA started a US\$4 million partnership to address food insecurity. Each organization is contributing US\$2 million in support of the United Nations World Food Programme's homegrown school meals program in Ecuador, Nepal, Sri Lanka and Uganda, reaching approximately 880,000 children in over 7,000 schools. LCIF received a generous planned gift totaling over US\$1 million from a donor in Italy to support this initiative.

2024-2025 LCIF Chairperson Dr. Patti Hill visited a participating school in Uganda and emphasized the importance of this collaboration saying, "When we look at the number of children who do not have a food secure environment, we know we have to intervene to give them a nutritious start in life. Working together with the school feeding program allows us to encourage health, nutrition and education."

Expanding beyond the immediate benefit for students, an integral part of the program is fueling the local economy. With local farmers producing the food used for school meals, the program creates over 1,400 jobs for every 100,000 children fed. District 411B Past District Governor Stanley Bubikire explains, "We feed the children, but we are also supporting local food production and creating sustainability for our country."

Even though hunger is a universal crisis, this partnership strives to find community-driven solutions to uplift and empower those who are directly impacted by food insecurity. World Food Program USA Chief Philanthropy and Partnerships Officer Dorota Amin says, "School meals are the most effective way to ensure that children get a nutritious meal every day and that they stay in school. It's an investment in a brighter future, and homegrown school feeding is an opportunity to build sustainable, more resilient communities."

Through partnership initiatives like this, Lions and LCIF offer a powerful reminder that simple investments in local solutions can change lives, improve academic outcomes and strengthen economies. "This is a revolutionary partnership," says Dr. Hill. "We are moving past traditional concepts around aid to engage with communities in collaborative, mutual support. Lions are at the forefront of this transformative movement in service. We are making a difference, and every dollar donated to LCIF supports grants and programs that expand our reach and empower us to serve in innovative ways."

## IN MEMORIAM

### Dr. Sandro Castellana

LCIF Trustee Castellana was a dedicated Lion for nearly 30 years, serving our association and foundation as an exemplary leader. Through his service, he made an incredible difference for people in need around the world. His steadfast commitment is an inspiration to Lions and Leos, now and in the future.

**Dr. Jitsuhiro Yamada**

**James "Jim" Ervin**

Past International President  
LCIF Board of Trustees Appointee

**Dr. Ta-Lung Chiang**

Past International Director  
Largest Per Member Giving Country

**Rodolfo A. Espinal**

Past International Director  
LCIF Board of Trustees Appointee

**Koji Tsurushima**

Past International Director  
Second Largest Per Member Giving Country

He was integral in securing the planned gift to support LCIF's partnership with World Food Program USA (pages 24–27).

Sandro was a great Lion and a very dear friend to all of us. He was a role model who epitomized integrity and kindness. I know we will all honor his memory by maintaining those values in everything we do.

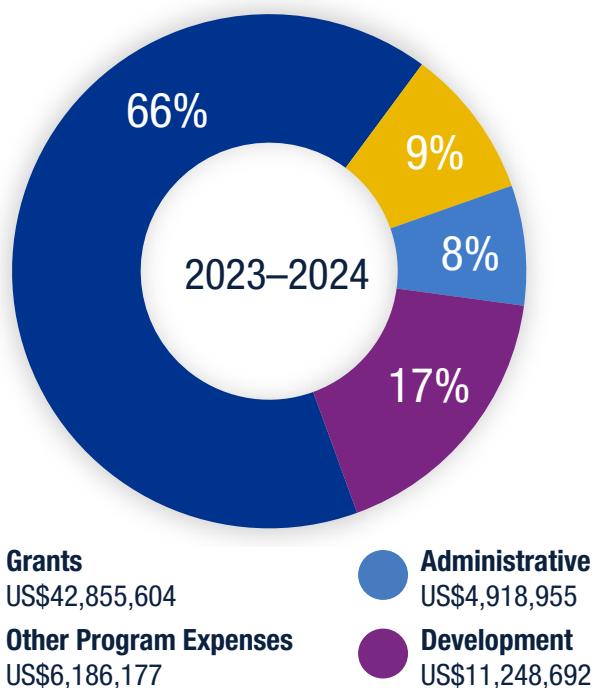

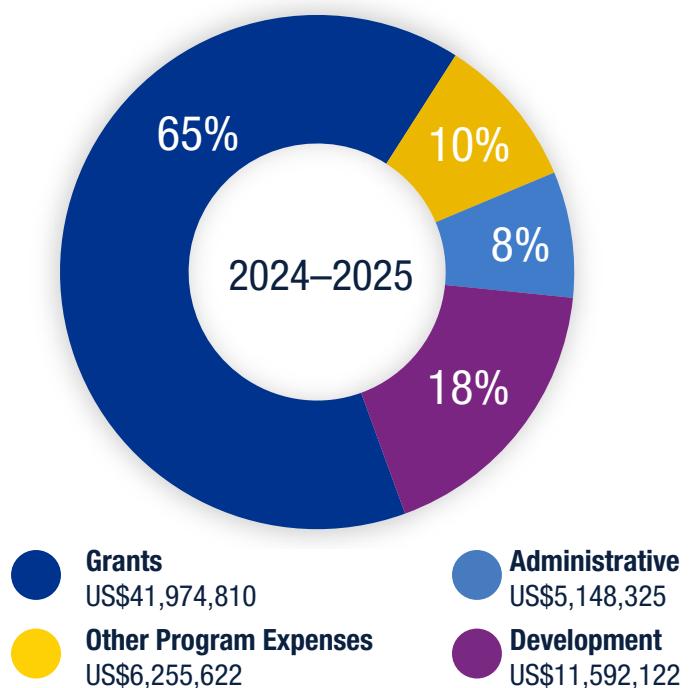

*Dr. Patti Hill*

Dr. Patti Hill
