

Reports Available on the Lion Portal

“Club Actions” on the Lion Portal:

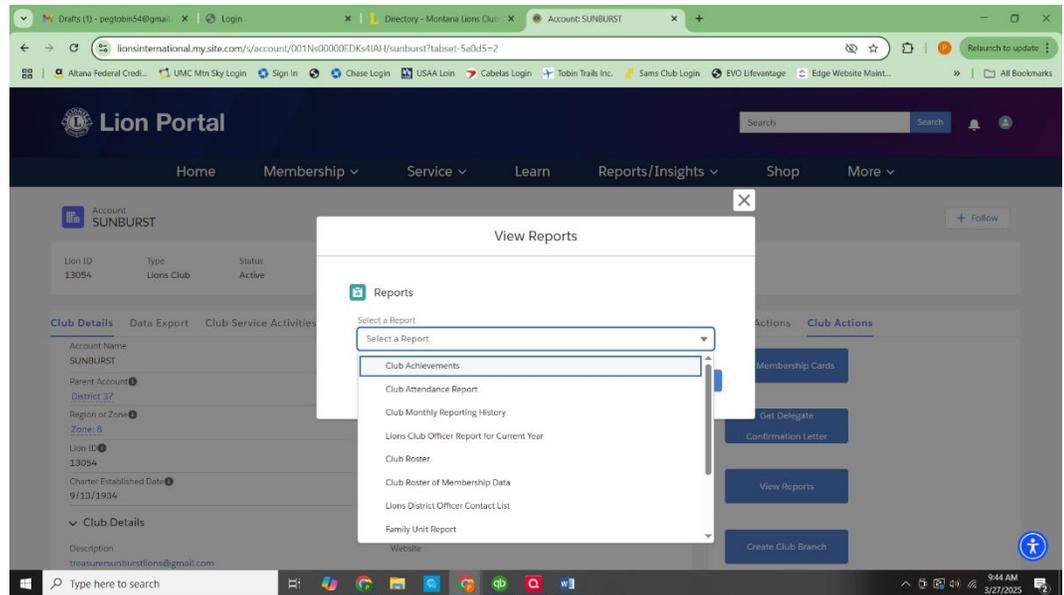

After logging into the portal, click on “My Club”

You will now have a menu to choose from that includes “View Reports”. Click on that and a box will pop up with “Select Report”

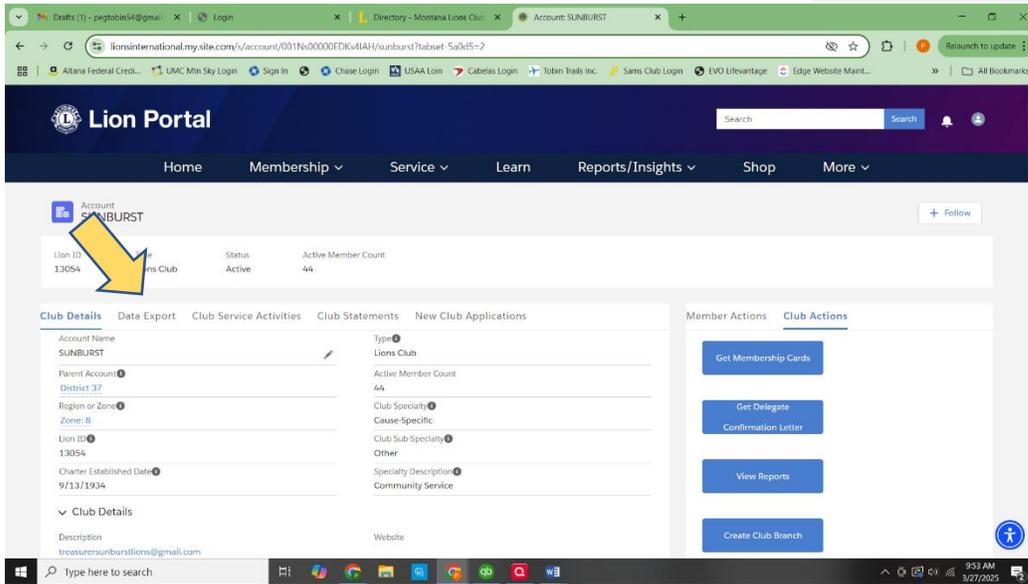

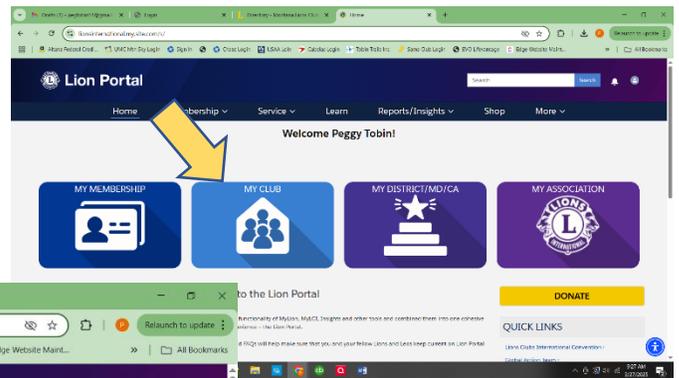

This list is extensive and includes items such as your Club Roster.

“Date Export” on the Lion Portal:

Another useful tool is the “Data Export also found under “My Club”.

When you click on “Data Export”, you will have the ability to select various member lists. When you click on one of the options, you will be taken to a page where you can export the information (I usually select excel). Then you can delete any unwanted columns and create custom reports.
